## 1.1 - Help Menu

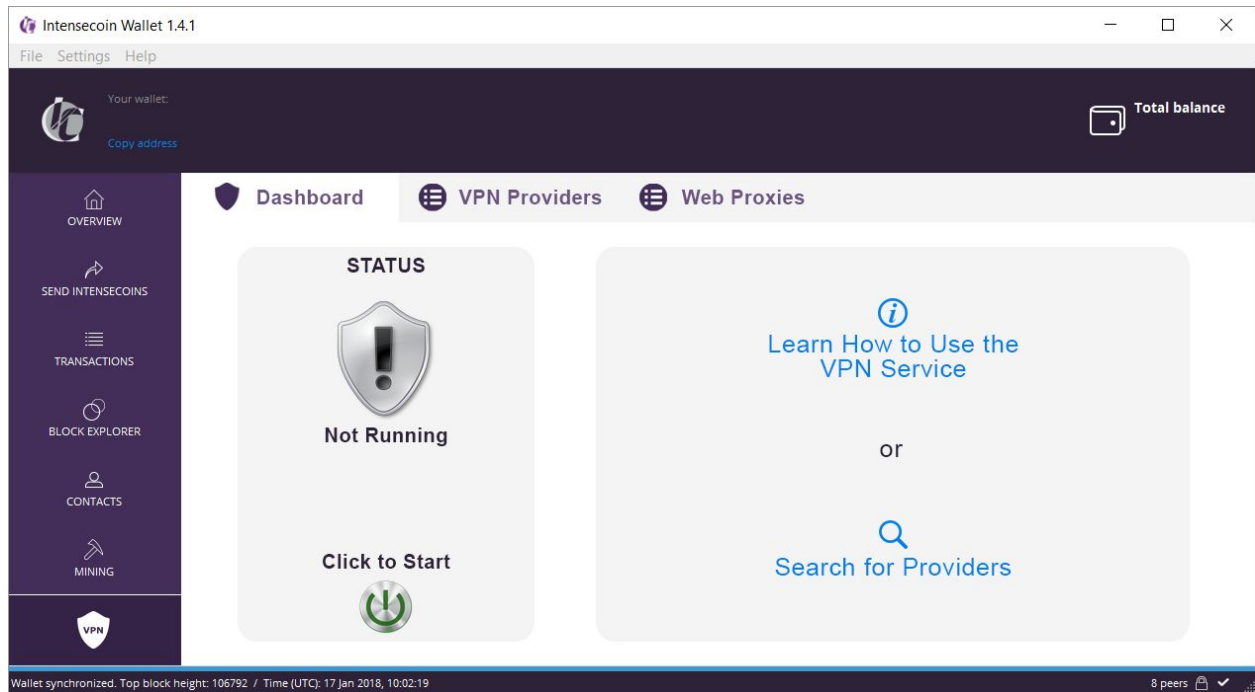

Help menu with option to show help regarding usage of the vpn service.

- Hide the button to start if no provider is selected. Show a modal saying no provider is selected

## 2 - Dashboard Screen

Screen the user sees when he opens the VPN menu for the first time. Service is stopped, and there are two easy access options, to learn how to use the service or searching for providers.

### 3 - Screen for searching for providers

Includes a list of existing providers, with plan names, price per minute, logging information, VPN speed and allows for adding to favorites. Filtering is possible at the top hand of the list, by protocol, country, maximum price, minimum speed, logging and favorites.

Includes link to plan details.

Revision 4 - Includes type and country, does not include anonymous

Revision 5 - Includes rating

### 4.3 - Screen for searching for providers, with protocol filter expanded

User can choose “Any” to show providers without protocol filtering, or choose X protocols to filter by.

REMOVED FROM FIRST RELEASE

## 5 - Provider details modal

Overlay screen shown when user clicks on provider name. Shows available plans with the ability to connect to any of them.

REMOVED

## 6 - Plan details modal

Overlay screen is shown when user clicks on a specific plan. Shows plan details including enabled protocols and other restrictions.

Revision 4 - Modal now in main table, triggered by click on plan

Revision 5 - Changed modal layout and added information available from SDP

The screenshot displays the Intensecoin Wallet 1.4.1 interface. The main window has a dark purple header with the wallet name and a menu bar (File, Settings, Help). Below the header is a sidebar with navigation icons for Overview, Send Intensecoins, Transactions, Block Explorer, Contacts, Mining, and a VPN icon. The main content area is divided into a 'Dashboard' tab and a 'Providers' tab. The 'Providers' tab shows a table of VPN providers and plans. A modal window is open, displaying details for the 'ACME VPN Provider Ltd. (Commercial)' plan. The modal includes a 'Filter' button, a 'Connect' button, and a table of plan details.

## 6.1 - Connection Confirmation

Connection confirmation screen is shown when user clicks on Connect button.

Shows information regarding connection and ability to auto renew or stop when time expires.

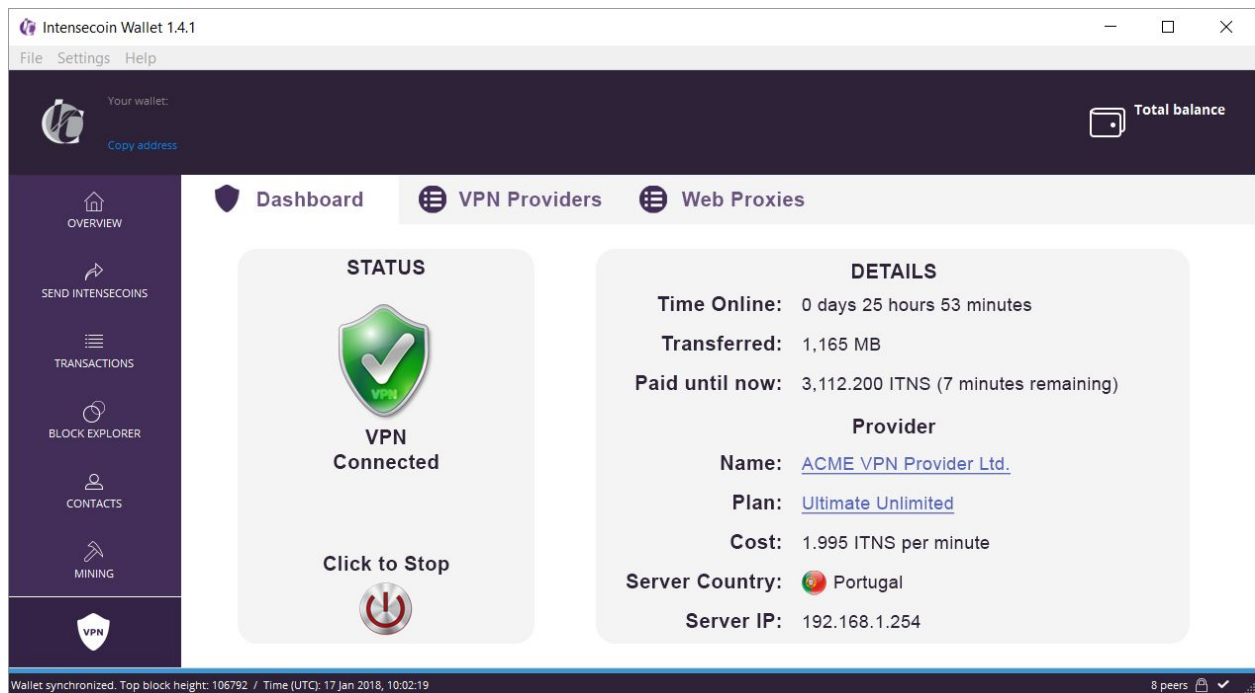

The screenshot displays the Intensecoin Wallet 1.4.1 interface. A modal dialog titled "Connection Confirmation" is centered on the screen, overlaying the "Providers" section. The dialog shows details for "ACME VPN Provider Ltd. Ultimate Unlimited", including a connection time of 1 minute and a cost of 1.005 ITNS. It offers two options: "Auto Renew Connection" (selected) and "Close after time expired". The background shows a list of providers with columns for Provider, Plan, Type, Max Price, Min Speed, Country, Favorite status, and an Action button. The status bar at the bottom indicates the wallet is synchronized, with a top block height of 106792 and a time of 17 Jan 2018, 10:02:19.

Provider	Plan	Type	Max Price	Min Speed	Country	Favorite	Action	
ACME VPN Provider Ltd.	Ultimate Unlimited				Portugal	★	Connect	
ACME VPN Provider Ltd.	Ultimate Privacy				United States	☆	Connect	
Intense Official VPN	Standard				United Kingdom	★	Connect	
Intense Official VPN	Premium				United States	☆	Connect	
Intense Official VPN	Premium				Portugal	☆	Connect	
Intense Official VPN	Premium				United States	☆	Connect	
Intense Official VPN	Premium	2.6	VPN	3.999 ITNS	10 Mb/s	Portugal	☆	Connect

## 7.1 - Dashboard screen when connection is active in VPN Mode

The user is able to see the status of the connection and click a button to stop an existing connection.

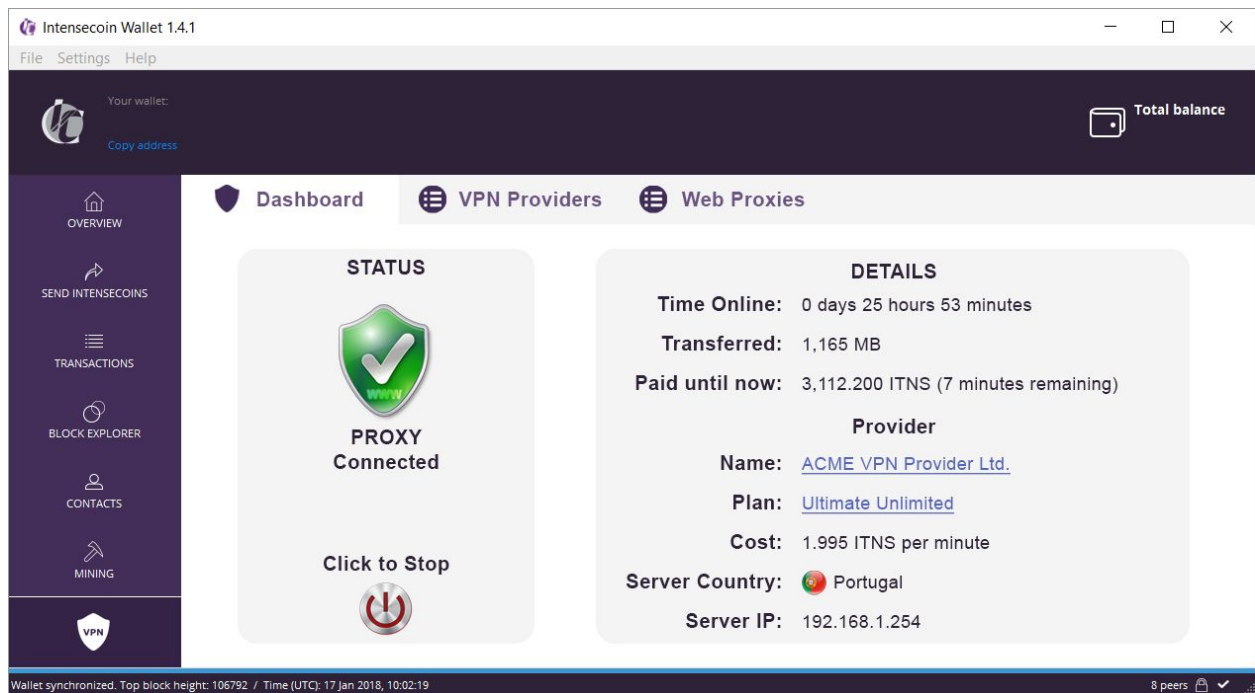

The user is also able to see details of the current connection, provider and plan information. Includes status information regarding the type of connection that is active.

## 7.2 - Dashboard screen when connection is active in Proxy Mode

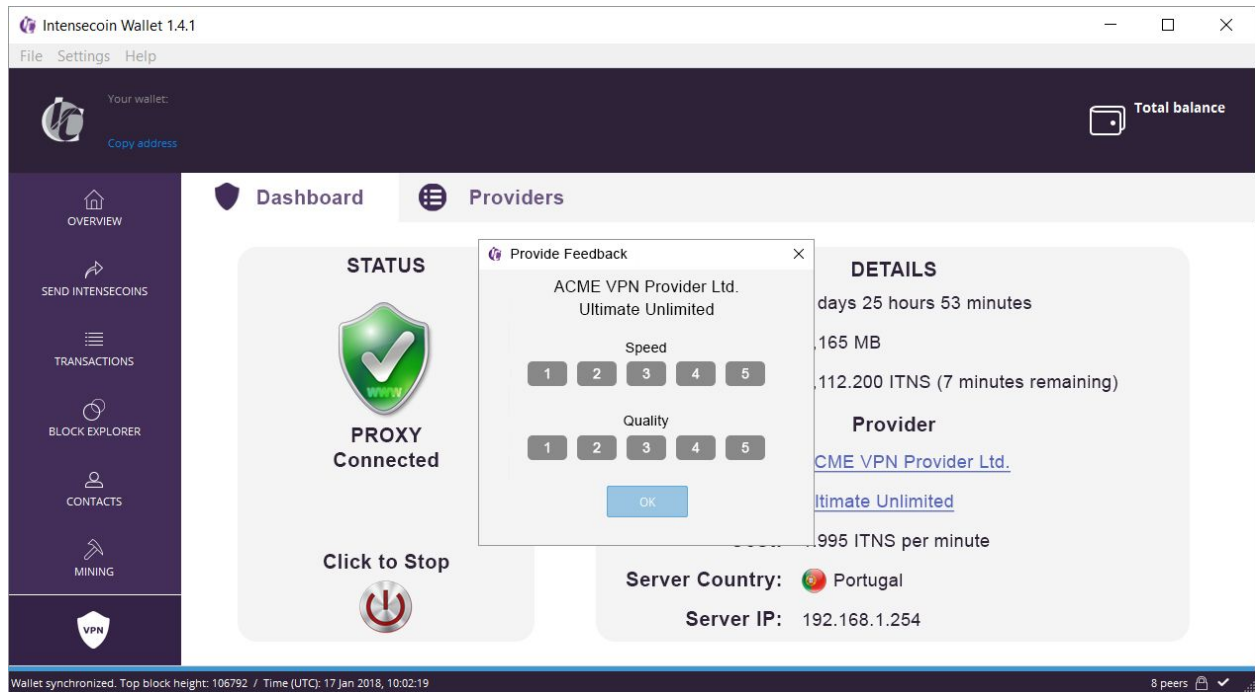

The user is able to see the status of the connection and click a button to stop an existing connection.

The user is also able to see details of the current connection, provider and plan information. Includes status information regarding the type of connection that is active.

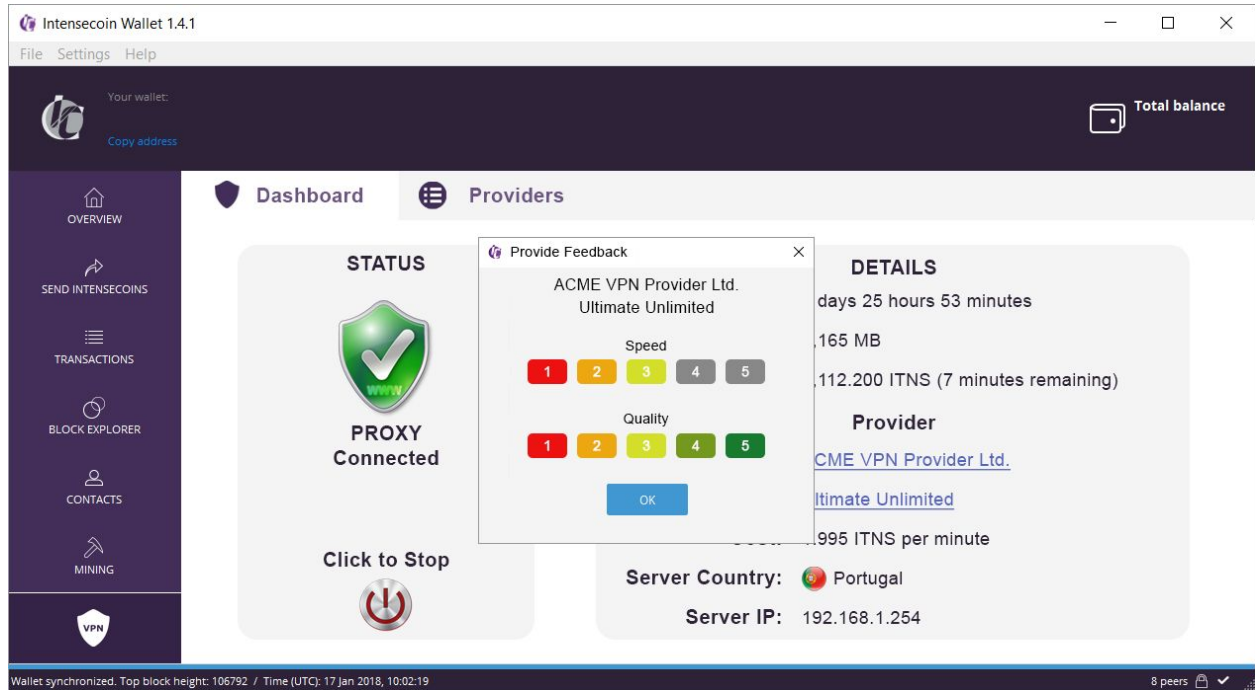

### 7.3.1 - Dashboard screen when users clicks the Stop Button

Connection is stopped and user is shown the Provide Feedback screen. The OK Button is disabled until scores are provided.

## 7.3.2 - Feedback screen with scores already selected

User is now able to click the OK Button.

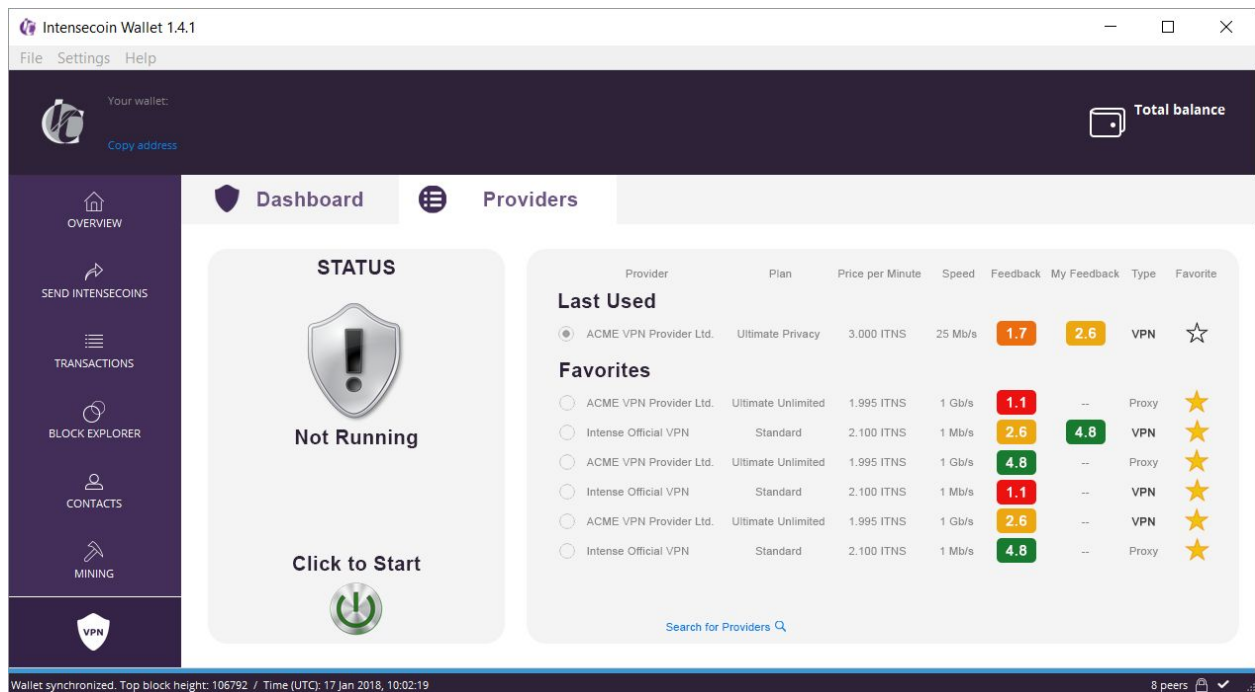

## 8 - Dashboard Screen when no connection is active

User is able to see the status, click a button to start using the selected provider, or search for providers. On the right is shown the last used provider, as well as the favorites list of the user, to allow for fast selection and usage.

Includes a column regarding the service type for each of the providers in the list, to allow for easier choice by the client.

Revision 2 - Added Global Feedback and personal feedback.

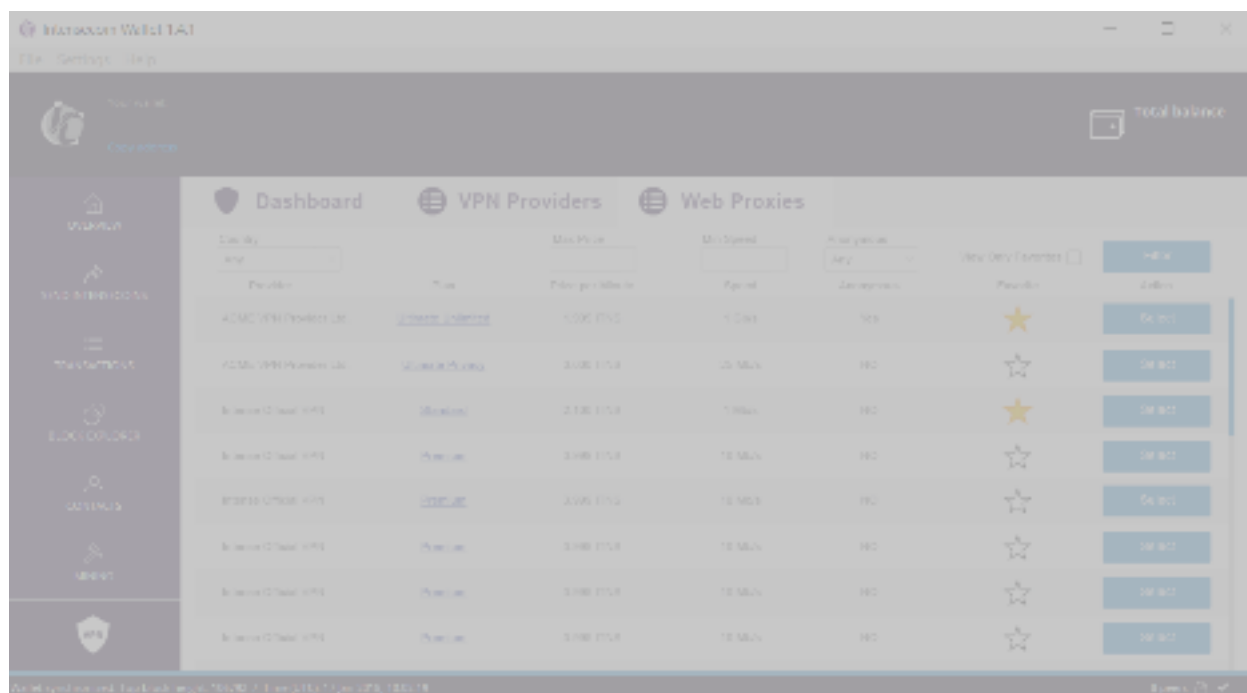

NOTE: Reconsider retiring the click to start button and have a connect button next side to each of the provider plans.

## 9 - Web Proxy Selection Tab

Similar to layout of VPN selection, showing available web proxy services.

REMOVED AND MERGED INTO VPN PROVIDERS VIEW

# Browser Extension GUI

## 1 - Home screen of the browser extension for first use

User has a button to connect and a help link that forwards to the site. The icon of the extension is shown in the browser bar.

Revision 3 - Changed Help color and display

## 2 - Home screen after trying to connect, if the proxy is not available.

Revision 2 - Added Help

### 3 - Extension screen with active connection

User can see connection details and plan information.

Revision 2 - Data transferred in bytes
